INTRODUCTION.

BY the publication of this volume, the sixth of the series, the list of the wills, inventories, and administration bonds now preserved at Chester is brought down to the year 1740. The previous volumes, with their respective numbers in the series of the Society's publications, are as follows:—Vol. II., Index to the Wills and Inventories at Chester, 1545 to 1620; Vol. IV., Index to the Wills and Inventories at Chester, 1621 to 1650; Vol. XV., Index to the Wills and Inventories at Chester, 1660 to 1680; Vol. XVIII., Index to the Wills and Inventories at Chester, 1681 to 1700; Vol. XX., Index to the Wills and Inventories at Chester, 1701 to 1720. In the several introductions to these volumes an account will be found of the wills now preserved at the Probate Court, Chester, which it is not necessary to repeat here. The area over which the Bishop of Chester had at this time jurisdiction was the same as at the foundation of the see of Chester, the whole of Lancashire and Cheshire, together with portions of Cumberland, Yorkshire and Flintshire. But the district from which the wills in the following pages were derived consisted of Cheshire, part of Flintshire, and that portion of Lancashire to the south of the river Ribble, which flows through Preston. The wills from the rest of the diocese, including Lancashire, to the north of the Ribble, and those portions of Cumberland and Yorkshire included within the diocese of Chester, were proved at

Richmond in Yorkshire before an official, the Commissary of Richmond, appointed by the Bishop of Chester, and subject to his supervision.

The following are the only wills copied into the Enrollment Books preserved in the Bishop's Registry, Chester, for the period embraced by this volume:—

Bows, Francis, of Poulton, parish of Lancaster, blacksmith. Will dated 4 July, 1732 (vol. 5, p. 476).

Burns, Miles, of Broughton, parish of Cartmel, co. Lanc., yeoman, Will dated 14 January, 1731-32 (vol. 5, p. 489).

Neither of these wills are to be found at Chester, but they occur in the Index to the Richmond Wills, 1681 to 1748 (Vol. XIII. of this Society's publications), and are now preserved at Somerset House, London.

J. P. EARWAKER.

PENSARN, ABERGELE, NORTH WALES.

THE following points are commended to the attention of those using this book:—

1. *In some cases inventories appear to have become detached from the original wills, and so have been placed in different bundles and indexed under different years. This list, however, being an alphabetical one, such cases will be speedily detected, and it will be easy to replace the inventories in their proper places.*

2. *Where the word "Inv" occurs, it signifies that the deceased had most probably died intestate, and that an inventory of his goods had been filed and administration granted to his representatives. Where the word "Admon" occurs, it shows that an administration bond had been filed as well. In all other cases the wills themselves are extant, either with or without the accompanying inventories.*

3. *It is to be noted that in the Probate Court of Chester the original wills up to 1838 (and not official transcripts, as in many other Probate Courts) are those shown to enquirers.*

4. *Owing to the original spelling of the wills having been followed in the MS. Index, and allowing for possible mis-readings, enquirers are particularly desired to search for any name bearing a resemblance to that they are looking for, as for example Leigh for Legh or Lee, Newall for Nowall, Houghton for Haughton, &c., &c. As far as possible this has been indicated by cross references in this list. Words now spelt with an i then frequently had y.*

5. *This list contains all the wills, inventories, and administration bonds now known to be preserved at the Probate Court, Chester, between the years 1721 and 1740 inclusive. It is in continuation of volumes 2, 4, 15, 18, and 20 (Indices to the Wills and Inventories now preserved at Chester, 1545 to 1620, 1621 to 1650, 1660 to 1680, 1681 to 1700, and 1701 to 1720), and will be followed by others, bringing the lists down to 1760, or possibly 1780.*

6. *In an Appendix will be found the list of all the wills, proved between 1721 and 1740, in which the amount of personality was less than £40. These wills, which were proved in the Rural Deans' Courts, are generally called "INFRA" wills, and there are none known of earlier date than 1660. They are kept distinct from the other wills, and when enquired for it is necessary to clearly describe them as being "Infra" and not ordinary wills.*

7. *This volume alone, including the Appendix, is an Index to about seventeen thousand documents.*
